

AMPERICON

Renewable Energy Generators Solar Power

Ampericon Inc, is a renewable energy and solar power specialist with over 120 satisfied customers. We specialize in energy saving solutions.

Just Want a Generator

Ampericon's all weather genset solutions are affordable, high quality and backed by a team of service engineers.

Our gensets are installed in an all weather enclosure. The genset and enclosure are mounted on a concrete pad. A standard install will connect the unit to your gas piping and electrical upto 10 feet from your generator . The transfer switch will ensure automatic/manual switch over to generator power to your critical home loads

Our genset prices including standard install are :

8KW	14KW	17KW	20KW
\$4,595	\$8,535	\$9,465	\$11,125
